A3 MONOCHROME MULTIFUNCTIONALS

FUNCTIONALITY THAT GROWS WITH YOUR BUSINESS.

 **KYOCERA**

EXTRA WORKLOADS MADE EASY.

DESIGNED TO ADAPT TO YOUR NEEDS, BUILT FOR RELIABILITY

Use the KM-2540 or KM-3040 to copy and, thanks to their upgradeability, you'll soon find yourself using them for printing and faxing too. Being able to go from one function to three with the same device, means more efficiency for your office.

They are easy to use, which means you won't spend precious time figuring out how to get things done. The simple operation and well-thought-out design were made with users' needs in mind. An adjustable touch panel, logical and intuitive to operate, turns every task into a straightforward one.

A built-in 200-sheet multi-purpose tray acts as an additional paper feeder to the two standard 500-sheet cassettes, making even large jobs easy. Meanwhile, a warm-up time of just 15 seconds means you can get to work without delay.

Reliability is integral to these devices. With long-life components, you have fewer interruptions to your workflows and the confidence of knowing deadlines will be met.

Growing offices need more and more flexibility. When this happens, you need to be able to cope with the change. Which is precisely what the Kyocera KM-2540 and KM-3040 were designed for. Easy to use and reliable, their strength is their ability to be expanded to handle additional requirements. Starting out as copiers, the addition of print and fax options turns them into efficient multifunctionals. Suiting the variety of tasks you'll need to carry out and allowing networks to function at full capability, these devices are a safe investment for the future.
